

Stadium Scoring

Electronic Scoring System

What is it all about

The new Stadium Scoring system is Basketball ACT's initiative to replace the paper scoresheet.

The introduction of the Stadium Scoring will involve a staged 'Pilot' period in which the electronic scoring will run in conjunction with the paper scoresheet. The implementation timetable is advertised within the Stadium.

During this Pilot period, we will require four (4) competent people to do bench duty if there is a shot-clock and at least three (3) people if there is no shot-clock.

What can you do?

Please be prepared to volunteer to learn the new system. While it may be a little intimidating at first, it should quickly become a familiar part of your game-day experience.

Please encourage other parents to have a go. Once you have familiarised yourself with the system you can become a trainer/mentor for your team.
